

## ***"Recognizing our History and Renewing a Sustainable Future"***

### **“Shiloh Goes Solar”**

**Solar Panel “Unveiling” for Construction as Shiloh Baptist Church of Bridgeport becomes the 1<sup>st</sup> Church in Southern Connecticut to move to primary Solar Power Generation.**

- Shiloh Baptist Church, FREEDOM (Faith Restoration Empowerment and Economic Development Outreach Ministries, Inc.) and Faith CDC who are recognized nationally and State-wide as leaders in Housing, Economic Development, Education and Sustainability, are supported by technical assistance and financing from the Connecticut Green Bank to model responsible environmental and financial stewardship in Southern Connecticut and throughout the region and nation.
- **Our joint goal is to make the resources available through the CT Green Bank known and accessible to Faith, Community and Corporate organizations** as a means of promoting and facilitating increasing development and use of sustainable and renewable energy and environmental resources. Through “Practicing What We Preach” in going Solar, we will set a standard for others who desire to leave the planet cleaner and more fruitful than when we were given these gifts as Stewards by reducing the carbon footprint and supporting a healthier community and environment.

### **“Solar for All”**

**Partnership Announcement between FREEDOM and POSIGEN, Supported by the CT Green Bank, and Faith CDC’s numerous Faith, Community and Corporate Organizations**

- **Provides access to clean and cost saving energy to Connecticut homeowners in Fairfield County and the entire state**, Through “Thinking Globally and Acting Locally, this initiative encourages residents to reduce environmental impact and degradation through the use of affordable solar energy and simultaneously save money through reduced energy costs, thereby creating more financial stability and supporting job growth in Connecticut through this venture.
- **The Program Features the ONLY Zero Down Payment and No Credit Check program in the State and is endorsed by Governor Dan Malloy.** The program will give thousands of Connecticut Home Owners access to affordable solar energy provided by PosiGen, with the financial support of the Connecticut Green Bank.
